The Preparations for Prince Victor's Funeral  
INDICATE AN IMPOSING EVENT

Interment to Take Place Next Wednesday—Miners Refuse to Adopt Resolutions of Sympathy.

LONDON, Jan. 16.—Preparations for the funeral of the duke of Clarence and Avondale are being made on all sides at Sandringham, by the railway companies and at Windsor castle. The body of the duke will be conveyed from Sandringham and will arrive at Windsor castle on the same day. All the details of the funeral have not been arranged, but it is announced positively that the interment will take place at noon on Wednesday. The body will be placed in the crypt in St. George's chapel in St. Lawrence.

No Tears to Shed.  
LONDON, Jan. 16.—The decorous fiction that the whole nation is overwhelmed with grief at the death of the duke of Clarence received a startling denial in the proceedings of the greatest workmen's union in England. The delegates to the miners' federation now holding their annual meeting at Stoke-on-Trent were apprised before assembling that their representatives in parliament desired that the federation should adopt a resolution of condolence. The strong democratic feeling known to suffuse the body made the proposal hazardous, but it was hoped that the delegates would not venture to deviate from the general custom by declaring that a death in the royal family was no particular business of theirs. This is exactly what they did. A telegram from their parliamentary leader, Mr. Picard, himself ill with influenza, asked for a vote of sympathy with the royal family, adding, "the queen has always expressed sympathy with us."

Went on with Business.  
Cries of "business" greeted the message. The member who moved the vote of condolence reminded the delegates that the queen in cases of accidents in mines had always helped the distressed. In sullen silence the conference listened to speeches in favor of the motion, and then by a vote of 19 to 13 passed without debate an amendment to proceed to business.

The Miners' federation has 200,000 members and it is the best organized and most powerful single union in the country. It has several representatives in the house of commons and controls the votes of others. No workmen's combination has so freely given of its own ranks or shown a keener perception of the sufferings of the proletariat. Interference with the family affairs of royalty being felt to be beyond them, they honestly said so. If all of the trades unions of Great Britain were similarly tested the result would be similar. The delegates immediately proceeded to vote sympathy with and substantial help for the starving milk-makers of the Midland districts who have long been on strike.

Evidences of Sorrow.  
The upper and middle classes are most keenly touched by the incidents of the duke of Clarence's death. Thousands clad in mourning have flocked to Marlborough house to record their names and throughout the capital well-dressed folk generally are donning some badge of grief. The Gazette directs that all persons wear mourning until February 23, while detailed orders are given to the court and to the army.

Princess of Wales Frostrated.  
The princess of Wales has not yet recovered from her grief and prostration. The latest announcement from Sandringham is that Dr. Laking is detained watching the princess of Wales and princess May, fearing that influenza may attack them. Prince George, who is still weak from his attack of typhoid fever, is also the cause of anxiety. The doctors have advised the prince of Wales as soon as possible to remove his family from the scene of affliction. The king of Denmark telegraphs that he desires personally to attend the funeral if his strength permits, and that he will be accompanied by the Danish crown prince, with his eldest son, Prince Charles. The czar will send his second son. The day of the funeral will be observed as a day of general mourning throughout the country. The governments of Australia are arranging to suspend business. The London stock exchange will be closed.

## ADOPTED BY THE HOUSE.

Holman's Resolutions Relating to Subsidies and Appropriations Go Through.  
WASHINGTON, Jan. 15.—In the house Mr. Holman (Ind.) stated that on reflection he considered his retrocession resolution sufficiently comprehensive and therefore withdrew his motion to reconsider the vote by which the previous question was ordered. A yeas and nays vote on the resolution followed. The first resolution was adopted—125 to 41.

This resolution put the house on record against subsidies and bounties in aid of special private industries or enterprises. The second resolution, which declares that no money ought to be appropriated except such as is necessary to carry on the departments frugally, efficiently and honestly administered, was passed—104 yeas and 93 nays. Mr. Holman made the usual motion to reconsider the vote and lay that motion on the table, which was adopted.

After the adoption of these resolutions the house took up for consideration the reports of the committee on accounts assigning clerks to the various committees of the house, and a discussion ensued as to whether there was not extravagance in the assignments. The minority substitute providing for twenty-four clerks was defeated—yeas, 56; nays, 154—and the majority report, which provides for thirty-seven clerks, was agreed to. A bill directed against gambling in grain was introduced in the house. This gambling, according to the bill, is defined to be a contract to sell for future delivery corn, wheat, oats, rye, barley and other grain, the contractor or seller not being the owner or agent of the owner at the time of the making of the contract. The bill excludes from the statute any letters, postal cards or circulars concerning gambling in agricultural

products, and checks, drafts, bills, money, postal notes or money orders for use for such purposes. It also excludes from the statute newspapers, circulars, pamphlets or publications of any kind containing advertisements, telegraphic reports or other articles giving quotations of any market relating to gambling in agricultural products.
